

The College Research Tool

Greetings & Salutations

👋 Hello! I have created this college research tool template. This is based on what has helped me and my friends organize our college research. I am not a professional, nor am I claiming to be. Please feel free to add or delete anything you want!! This is just a way for you to organize your research and hopefully relieve some stress.

The way I have created this is by consulting various individuals and compiling as much of the information as I could.

The purpose of TCRT is to alleviate stress during the college research process. I, unfortunately, cannot help with the *"getting into a college"* part because I have no control over that. We are in the same boat, really. Hope this helps, even if it's in a very small way. Best of luck <3 👋

To edit this and make this your own, please click the duplicate button at the top-right of the screen.

The Steps

Although I called this section "The Steps", you can do it in any order you want.
